

How you can Help

Meaningful • Impactful • Manageable

1

Pick one or more individual(s) to serve as your organization's **Gift of Hope** Workplace Partnership for Life (WPL) Liaison

2

Go to www.giftofhope.org/workplacepartners and provide information about your organization and your WPL Liaison's contact information

3

Check out **Gift of Hope** Workplace Partnership for Life service opportunities (see below) and let us know which activities appeal to your organization

What you can do

Messages from Leadership. We all read the emails sent by our leadership teams. Help us maximize the impact of our donation message. Gift of Hope will provide a monthly email message to share with your team.

Learn More About the Heroes in Our Community. Learn about the donation experience from a Gift of Hope Donor Family in your community. One of Gift of Hope's Donor Families will share their personal organ or tissue donation story with your leadership team, or at an employee event.

Celebrate the Heroes in Your Community. When a Donor saves the lives of others, the Hospital often raises a Gift of Hope flag in honor and celebration of the Donor. Receive a complimentary 2020 Gift of Hope Celebration of Life flag and raise it at your organization in support of organ and tissue donors and transplant recipients in your community.

Help Take the Message Farther. Help HRSA and Gift of Hope connect with the Community. Include information about organ and tissue donation and a link to organdonor.gov on your organization's website or other social media platforms.

Host or Sponsor an Education & Registration Station. The Community Outreach team will set up a virtual Gift of Hope Education & Registration drive for your organization.
