

**ONE VOICE,
ONE VISION...** *TO Save AND Heal LIVES*

How you can Help

- 1** Contact a Community Affairs Specialist to discuss how we can partner on a customize plan to commemorate the month.
- 2** Go to giftofhope.org to view the National Minority Donor Awareness Month Toolkit and share the campaign materials with your congregation.
- 3** Sign up and become a Churches for Hope member. To learn more, contact a Community Affairs Specialist Team member.

What you can do

Messages from Faith Leader. We all read the emails sent by our faith leaders. Help us maximize the impact of our donation message. Gift of Hope will provide a templated message to share with your congregation.

Learn More About the Heroes in Our Community. Learn about the donation experience from a Gift of Hope Donor Family in your community. One of Gift of Hope's Donor Families will share their personal organ or tissue donation story during a church service/gathering.

Celebrate the Heroes in Your Congregation. When a Donor saves the lives of others, the Hospital often raises a Gift of Hope flag in honor and celebration of the Donor. Receive a complimentary 2020 Gift of Hope Celebration of Life flag and raise it at your church in support of organ and tissue donors and transplant recipients in your congregation.

Help Take the Message Farther. Help Gift of Hope connect with the congregation. Include information about organ, eye and tissue donation and share donation information on your church's website or other social media platforms.

Host or Sponsor a Virtual Education & Registration Station. The Community Affairs team will collaborate with you and set up a virtual Gift of Hope Education & Registration drive for your church community.
